#### A website!

**GeoBeer Switzerland** 

Previously - Twitter List

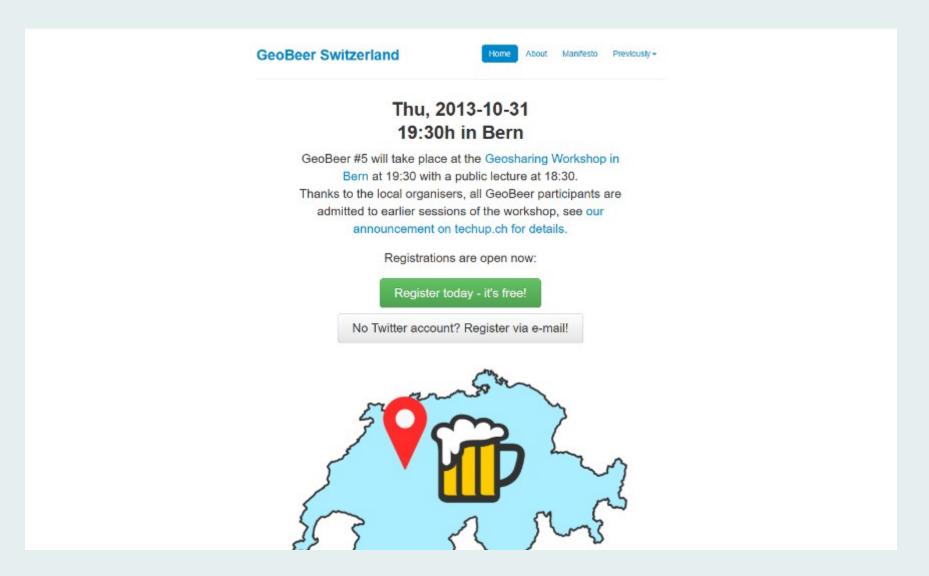

#### Wed, 2013-07-03 18:30h in Basel

Feierabendstrasse 80 (near Bahnhof SBB)

sponsored by Institut fÃ1/4r Vermessung und Geoinformation, FHNW

#### A manifesto!

#### A manifesto!

#### Our profession is our passion: We have "geo" as our common prefix.

We share the fascination of mapping, analyzing and modelling the earth and its phenomena, large and small.

#### **Networking is inclusive: Everybody adds value.**

Whether you are a student, vendor, engineer, researcher, hobbyist, mapper, surveyor or an entirely different animal: We all want to chat, learn from each other and have fun.

#### Our minds are open: Opinions are important, especially coming from others.

In a stimulating environment, we have the unique opportunity to change our points of view, leave our comfort zones and think outside our respective boxes.

#### Telling beats selling: Let's share ideas, not sell products, organizations or philosophies.

Each event begins with 5-minute talks about cool ideas, a fascinating story or fancy devices and technologies serving as conversation starters. We like competition, but let's have a break for an evening.

#### We love all of Switzerland in its diversity: Nobody and nowhere is shut out

We aim to have events in all parts of Switzerland and welcome everybody: all genders, creeds and colours, citizen or expat, speaking French, Italian, German, Romansh, English, Python, C# or Javascript. We welcome sponsorships from parties all over the country.

#### Beer tastes great, as do other beverages: Do come, also if you don't like beer.

The event name is symbolic, various other beverages are provided.

## Let's see where this goes.

«At some point we'll have been everywhere... What do we do then?»

### Let's see where this goes.

«At some point we'll have been everywhere... What do we do then?»

«Once it's no longer fun and we have to look for sponsors, let's stop.»

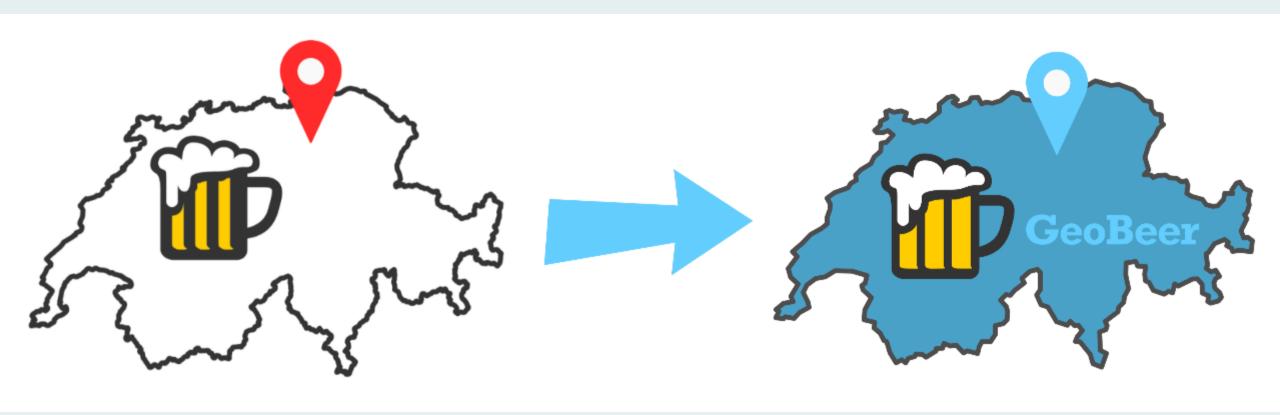

## Let's see where this goes.

«At some point we'll have been everywhere... What do we do then?»

«Once it's no longer fun and we have to look for sponsors, let's stop.»

«Agreed.»
